

Calculated Draw length

Draw Length		Bow Size		Arm Span	
Lower	Upper	Lower	Upper	Lower	Upper
14	16	48	54	35	40
16	20	54	58	40	50
20	22	58	62	50	55
22	24	62	64	55	60
24	26	64	66	60	65
26	28	66	68	65	70
28	30	68	70	70	75
30	32	70	72	75	80

When giving someone a bow first measure their arm span finger tip to finger tip. An Archer can shoot a bow from a higher colour but **NOT** a lower colour.

Example: An archers arm span falls in the green zone. Therefore they should shoot a Green marked bow. However they could shoot Blue or Red marked bow but should not shoot one that is marked Orange or Yellow.
